The Marietta Daily Leader

THURSDAY, FEBRUARY 16, 1899.

The Devil's Dam Electric Line.

Marietta should by all means get the electric railroad line to Devil's Dam. In addition to enhancing the value of the property along the line and making valuable building additions, the plain hand above and below Devil's Dam is the finest for truck gardening and small fruits to be found in southern Ohio.

But the trouble is now to get the children during the berry season to pick the berries. With the electric line they could go out in the morning in 15 or 20 minutes and work all morning or all day and return in the evening.

The market here would be from three to four weeks earlier for vegetables and small fruits than that at Cleveland, Buffalo and other northern cities.

The electric plant at run by water power at Devil's Dam, would be very cheap.

At the Boat House.

A special meeting was held last night in the Marietta Athletic Club rooms on Front street. The Boat House has been leased for one year, and a more convenient place could not be secured. All the officers were present and began work at once. The first thing brought up was that the organization should be known as the Marietta Athletic Club. The object will be to fit up the Club with the best improvements. There are now 28 members, with new ones coming in every day. Mr. Joe Bruner, the genial boxer and all round athlete, will be the Club's instructor and a better man could not be found. Strict rules will prevail. After discussing a few minor matters the officers departed, wishing success to the new Marietta Athletic Club. Another meeting will be held next Thursday evening.

Penrose-Sleigh.

A quiet home wedding was solemnized at the home of the bride's mother, Mrs. H. P. Sleigh, 310 Fourth street, Wednesday evening at 8:30 o'clock, in which Mr. Frank Penrose, the popular salesman of the Penrose & Simpson Co., and Miss Elizabeth Sleigh, who is a well known and popular young lady, were united for life.

Rev. J. R. Nichols performed the ceremony in the presence of only the immediate families of the contracting parties. After the ceremony, a wedding supper was served.

The young people will remain in the city. They have the congratulations of their many friends with whom the Leader unites in wishing them a long and happy life.

Critical on the River.

On the river boat owners and coal shippers are simply waiting to see what will turn up. There was no material change in use situation yesterday. The continued falling river, however, keeps on making more dangerous the condition of boats and coal fleets that had got caught in the frozen ice at the shore. There are quite a number of boats and fleets in that critical condition, and it is thought there will be considerable loss from that alone, without considering what their chances will be in the event of a sudden rush of floating ice from the tributaries.—Commercial Tribune.

Might Expect It at Parkersburg.

The other day when some thoughtful and charitable citizens were endeavoring to relieve the suffering of those in need of fuel, they had some strange experiences.

Coal was very hard to get because the supply was so limited, so Mr. C. W. Archbold gave the committee 500 bushels of coke for the refinery. This was gladly accepted and the work of distributing begun.

When, some of the people to whom a load of coke was sent, absolutely refused to receive it and would not let it be dumped on their premises.—Parkersburg Journal.

Valentine Dance.

About 200 people who dance attended the Valentine Ball at Power Hall Tuesday night. A splendid programme was enjoyed—the dancing being to the music of Mason's Orchestra. The new two-step quadrille was particularly good.

The prompter, Mr. Geo. Pfing and his wife led the grand march, and did it in a manner pleasing to all.

The valentines were a good feature, and they created lots of fun. The names were read off by the prompter, and the valentines were delivered by the floor manager.

House Coats or Smoking Jackets.

These were bought for last Christmas trade. All new goods. Two grades, real worth 10.00 and 12.00, but we sold them at \$5.00 and \$7.50. House coats ought not to be just for Christmas trade, but ought to be sold at any time. We don't want to carry these until next Christmas, hence these cut prices: \$3.00 and \$5.00. House coats are just the thing to slip on after the day's work is done, to smoke, read and lounge around in. They save your other coat.

Rice and Barton's Extravaganza Co.

There will be presented at the Auditorium Friday, Feb. 17, an attraction of the liveliest kind, a show which has been the talk of every season since it was first happily originated. Rice & Barton's new Big Gaiety Spectacular Extravaganza Co. in a triple bill. Of their many companies this is their favorite, and they personally appear at every performance. It enjoys the enviable reputation of more record-breaking engagements than achieved by any other burlesque organization. They were the first to bring to the public the wealth of amusement a burlesque on Coney Island would create and as all theatre goers know, it made a terrific hit from the hour of its first production and it will surely duplicate its former triumphs here as it has been brought up to date. Big success as it must be preceded this season by Rice & Barton's new laughing farce in three scenes, "Maid of the Tenderloin." This is a superbly costumed burlesque, full of laughter and rollicking amusement, while the display of silks, satins and fancy colors would do credit to any extravaganza. Unlimited laughter prevails in every line of this burlesque. An entire olio is sandwiched in between the two burlesques: Frankie Laines, Barton & Eckhoff, Swan & Barnard, Touey & Mack, Miles & Raymond, and at every performance, Rice & Barton. During the action of the burlesques, the Princess Dancers, Josie Flynn, Mattie Mills, Little Africa and Miss Blaisie. L. M. Luchs, Mgr.
